EDUCATION

B.E. in Computer Engineering Expected 2027

NBN Sinhgad Technical Institute Campus, Savitribai Phule Pune University

CGPA: 9.18 / 10

Relevant Coursework: DSA, DBMS, Operating Systems, Computer Networks, OOP

Senior Secondary (12th Grade) 2020 – 2022

Upgraded +2 High School, Koderma

Percentage: 83%

SKILLS

Languages	Java, C++, JavaScript, TypeScript, Python, SQL
Core CS	DSA, OOP, DBMS, OS, CN
Backend	Node.js, Express.js, REST APIs, JWT
Frontend	React.js, Tailwind CSS, HTML5, CSS3
Databases	MySQL, MongoDB
Tools	Git, GitHub, Postman, Cloudinary, Vercel, Render

PROJECTS

Motionly GitHub | Live Demo

Scalable full-stack video sharing platform

React, Node.js, Express.js, MongoDB, JWT, Cloudinary

- Built scalable RESTful APIs for videos, playlists, comments, subscriptions, and likes.
- Implemented secure JWT authentication and protected route middleware.
- Built an optimized media upload pipeline using Cloudinary for efficient storage and retrieval.
- Designed scalable MongoDB schemas to support dynamic user interactions.

SyncSpace GitHub | Live Demo

Real-time language exchange platform with chat and video calling

React, Node.js, Express.js, MongoDB, Stream SDK

- Implemented JWT-based authentication and authorization using protected routes and middleware.
- Built a friend request and user interaction workflow using modular backend architecture.
- Integrated Stream SDK for real-time messaging and video communication.
- Structured RESTful APIs using modular controller-service architecture.

AI Resume Analyzer GitHub | Live Demo

AI-powered ATS resume evaluation and feedback platform

React, TypeScript, Tailwind CSS, Zustand, Puter.js

- Built an AI-powered platform that evaluates resumes and generates ATS-style feedback.
- Developed a responsive frontend using React and TypeScript with reusable component architecture.
- Implemented resume upload, AI-driven scoring, and keyword-based evaluation workflows.
- Utilized Zustand for lightweight state management and structured application-wide data flow.

EXPERIENCE

Web Development Intern Oct 2025 – Nov 2025

ApexPlanet Software Pvt. Ltd. *Virtual*

- Developed responsive and reusable frontend modules using HTML, CSS, and JavaScript.
- Built an e-commerce style application featuring product listing, filtering, pagination, and cart functionality.
- Improved code readability and maintainability through structured component-based development.

ACHIEVEMENTS

- Solved 300+ DSA problems across LeetCode and GeeksforGeeks.
- Oracle Cloud Infrastructure 2025 AI Foundations Associate certified by Oracle University.
- Runner-up in a National-Level TechFest Blind C Event.
